## TECH GUIDES

## DESCRIPTION

### ➤ **Problem Statement:**

Whenever we learn a new skill or technology, we can't decide which resources will be used or which type of path we will select for learning the newly developed technology. Students cannot grasp technology or skills at the college level. They cannot decide which topics to include in desired skills or technologies.

### ➤ **Solution Statement or Functionalities:**

I provide solutions to major market problems using a small guidance website. As well as providing technical guidance, we also provide the latest technology resources. Resources like: PDF or video-based formats are available on the website. You can also download the guidance PDFs or watch the top YouTube Videos. Finally, add industry guidance about the major questions like how to make a resume, placement resources, and interview experience. We can improve our websites based on User Feedback.

## ➤ Structure of Website:

### 1. Home:

- a. Onboarding Image
- b. Top Roadmaps on Card view
  - 1. Role Bases ex. Android dev, Web dev
  - 2. Skill Bases ex. React js , angular etc..
- c. Top Guides on Card view
- d. Top Videos on Card view

### 2. Roadmaps:

- a. Role Bases (8-10 Category)
- b. Skill Bases (6 Category)

When click on category page to show information about selected skills and technology on the Basic, intermediate or Advance level and also, provide the complete roadmap as a PDF format so users can download and save it.

### 3. Guides:

- a. Resume:
  - 1. Freshers
  - 2. Experience Persons
- b. Placements:
  - 1. On Campus
  - 2. Off Campus
- c. Interview Experiences:
  - 1. List of Company Interview Process Blogs

## **4. Videos:**

- a. List of All Roadmap or guidance videos

## **5. About us/contact us:**

- a. Display Image
- b. Introduction about us
- c. Fill form for User's Feedback

## **➤ Technology Used:**

1. Html5
2. CSS
3. Javascript
